

Report of the Scientific Committee

Tromsø, Norway, 30 May to 11 June 2011

Annex O: Progress Reports

This report is **CONFIDENTIAL** until
the opening session of the Commission's Plenary
at **10.00am** on **Monday 11th July 2011**

Annex O

Progress Reports

This Annex summarises information presented in the National Progress Reports

NATURAL MARKING DATA

Species	Feature	Area/stock	No. photo-id'd	Catalogue (Y/N)	Catalogue total	Contact person/institute; refs
Argentina						
Southern right whale	Head callosities	S Patagonia	0	Y	9	CTH/ <i>cethus@cethus.org</i>
Commerson's dolphin	Coloration pattern, scars, dorsal fin	Bahía San Julián	5	Y	64	CTH/ <i>cethus@cethus.org</i>
Bottlenose dolphin	Coloration pattern, scars, dorsal fins	Rio Negro Estuary	10	Y	20	CTH/ <i>cethus@cethus.org</i>
Southern right whale	Callosity pattern	SW Atlantic, N Patagonia	2010/spring/477	Y	2,749 indiv. id'd btwn 1971-2009. 2010 under analy.	V. Rowntree/ICB-WCI/OA; Univ. of Utah <i>rowntree@biology.utah.edu</i>
Southern right whale	Callosity pattern	Bahía San Antonio	20	Y	20	E. Vermeulen/Marybio
Bottlenose dolphins	Dorsal fin, distinctive scars	Bahía San Antonio	65	Y	65	E. Vermeulen/Marybio
Franciscana	Dorsal fin, flippers, fluke, body scars	S Buenos Aires coast, Argentina	6	Y	65	L. Cappozzo; M. F. Negri; M.V. Panebianco; M.N. Paso Viola/MACN
<i>Tonina overa</i>	Dorsal fin, flippers, fluke, body scars	Tierra del Fuego, Argentina	6	Y	11	L. Cappozzo; I. Cáceres Sáez/MACN
Australia						
Australian snubfin dolphin	Dorsal	NT, Australia	40	Y	60	C. Palmer/NRETAS
Australian snubfin dolphin	Dorsal fin-genetic	Central QLD	79	y	79	C. Daniele/CQU
Blue whale	Lateral	Geographe Bay, WA	12	Y	180	C. Burton/WWR
Bottlenose dolphin	Dorsal fin	Gulf St Vincent, SA	51	Y	51	L. Moller/ Flinders
Bottlenose dolphin	Dorsal fin	Byron Bay, NSW	550	Y	550	E. Hawkins/SCU
Bottlenose dolphin	Dorsal fin	Gold Coast/Tweed Heads region, QLD	200	Y	200	E. Hawkins/SCU
Bottlenose dolphin	Dorsal fin	Moreton Bay, QLD	132	Y	477	I. Ansmann/UQ
Bottlenose dolphin	Dorsal fin	Port Phillip	Analysis	Y	110	S. Mason/DRI
Bottlenose dolphin	Dorsal fin	Gippsland Lakes	continuing	Y	30	K. Charlton-Robb/Monash; DRI
Bryde's whale	Dorsal fin	Pacific	2	Y	2	S. Mason/DRI
Common dolphin	Dorsal fin	Gold Coast/Tweed Heads region, QLD	30	Y	30	C.A. Fury/SCU
Common dolphin	Dorsal fin	Port Phillip	Analysis cont.	Y	12	E. Hawkins/SCU
Dwarf minke whale	Lateral markings/ unique features	N GBR/Ribbon Reef area, QLD	Unknown	Y	Unknown	S. Mason/DRI
Dwarf minke whale	L/R thorax region; scar patterns/other unique features	N GBR, QLD	Approx. 100. Analysis ongoing	Y	See Note 1	A. Birtles/JCU
Humpback whale	Fluke	Group V	400	Y	400	A. Birtles/JCU; S. Soltzick/JCU
Humpback whale	Fluke	Port Douglas/Cairns and Whitsundays Island, Area V stock	Unknown	Y	Unknown	J.O. Meynecke/GU
Humpback whale	Fluke	E Australia, Stock V	504	Y	5,285	G. Kaufman/PWF
Humpback whale	Ventral flukes/left/ right dorsal fin/ lateral body marks	Area V/Hervey Bay	788	Y	2,288 (1992-2009)	G. Kaufman/PWF
Humpback whale	Fluke	E Australia (E(i))	19	Y	~100	T. Franklin/TOP; W. Franklin/TOP
Humpback whale	Fluke, lateral body	Exmouth Gulf/Stock D	526	N	3,352	M. Noad/ UQ
Humpback whale	Fluke, lateral body	Rottneest Island/Stock D	459	N	3,352	C. Jenner, W. Osborn, P Osborn/CWR
Humpback whale	Fluke	Geographe Bay, WA	30	N	2,000	C. Jenner, V. Boladeras/CWR
Humpback whale	Lateral	Geographe Bay, WA	50	N	2,500	C. Burton/WWR
Indo-Pacific bottlenose	Dorsal	NT, Australia	30	Y	171	C. Burton/WWR
Indo-Pacific bottlenose	Dorsal fin	Coral Bay	10	Y	10	C. Palmer/NRETAS
Indo-Pacific bottlenose dolphin	Dorsal fin	Adelaide area, SA	U	U	U	S. Allen/MUCRU
Indo-Pacific bottlenose dolphin	Dorsal fin	Bunbury	503	Y	503	M. Bossley/WDCS
Indo-Pacific bottlenose dolphin	Fluke	Pacific	14	Y	14	V. Buchanan; D. Chabanne/MUCRU
Indo-Pacific humpback dolphin	Dorsal fin	Gold Coast/Tweed Heads region	6	Y	6	C.A. Fury/SCU
Indo-Pacific humpback dolphin	Dorsal fin-genetic	Central QLD	150	Y	150	E. Hawkins/SCU

Cont.

Species	Feature	Area/stock	No. photo-id'd	Catalogue (Y/N)	Catalogue total	Contact person/institute; refs
Australia cont.						
Indo-Pacific humpback dolphin	Dorsal	NT, Australia	45	Y	175	C. Palmer/NRETAS
Indo-Pacific humpback dolphin	Dorsal fin	Exmouth, Dampier, Port Hedland	60	Y	60	L. Bejder/MUCRU
Indo-Pacific humpback dolphin	Dorsal fin	Coral Bay	3	Y	3	S. Allen/MUCRU
Inshore bottlenose dolphin	Dorsal fin	Central QLD	N/A	Y	N/A	C. Daniele/CQU
Minke whale	Lateral	Geographe Bay, WA	2	N		C. Burton/WWR
Pygmy blue whale	Lateral pigment pattern	S Australia (off SA)	6	Y	200	M. Morrice/BWS
Pygmy blue whale	Lateral pigment pattern	S Australia (off VIC)	21	Y	200	M. Morrice/BWS
Pygmy blue whale	Dorsal fin	Perth Canyon	23	Y	320	C. Jenner/CWR
Snubfin dolphin	Dorsal fin	Roebuck Bay	15	Y	15	S. Allen/MUCRU
Southern right whale	Callosity aerial and boat based	SE Australia	16	Y	104	R. Gales/DPIPWE
Southern right whale	Callosities	S Australia	52	Y	~1060	Burnell, Charlton/SAM
Southern right whale	Head callosity	SE Australia	25 individuals	Y	163	M. Watson/DSE
Southern right whale	Head callosity pattern	S Australia, C Leeuwin, WA, Ceduna, SA	2010/ca 5,100	N	6,208 images 1976-2009. 1,406 individ. id'd, mainly to 2006	J. Bannister/WAM
Brazil						
Bottlenose dolphin	Dorsal fin	Laguna, SC, BR.	27	Y	27	M.J. Cremer/UNIVILLE
Bottlenose dolphin	Dorsal fin	Coastal area of Paraná	2	N	0	LEC/CEM/UFPR; <i>camila.lec@ufpr.br</i>
Franciscana	Dorsal fin	Baía da Babitonga, SC	2	Y	2	M. J. Cremer/UNIVILLE
Franciscana	Dorsal fin	Estuarine complex of Paranaguá. PR. Brazil	1	Y	2	LEC/CEM/UFPR <i>camila.lec@ufpr.br</i>
Guiana dolphin	Dorsal fin	Ceará	14	Y	30	A.C. Meirelles
Guiana dolphin	Dorsal	Bahia State	2010/n=75	Y	144	L.L. Wedekin/IBJ
Guiana dolphin	Dorsal fin	Port of Ilhéus, BA	51	Y	77	Y. Le Pendu/UDESC
Guiana dolphin	Dorsal fin	Canavieiras estuary, BA	14	Y	14	Y. Le Pendu/UDESC
Guiana dolphin	Dorsal fin	Baía da Babitonga, SC	68	Y	68	M.J. Cremer/UNIVILLE
Guiana dolphin	Dorsal fin	Estuarine complex of Paranaguá. PR. Brazil	43	Y	61	LEC/CEM/UFPR <i>camila.lec@ufpr.br</i>
Humpback whale	Fluke	Abrolhos Bank (BSA)	2010/n=223	N	3,239 (2010 not yet analysed)	M. Neves/IBJ
Humpback whale	Fluke	NE of Bahia State (BSA)	2010/n=33	Y	841 (2010 not yet analysed)	C. Baracho/IBJ
Rough-toothed dolphin	Dorsal	Rio de Janeiro	107	Y	107	Lailson-Brito; Azevedo/UERJ
Rough-toothed dolphin	Dorsal fin	Coastal area of Paraná	3	N	0	LEC/CEM/UFPR <i>camila.lec@ufpr.br</i>
Guiana dolphin	Dorsal	Guanabara Bay	32	Y	69	Lailson-Brito; Azevedo/UERJ
Southern right whale	Head callosities and dorsal marks	S Brazil	~70	N	455**	K.R. Groch
Spinner dolphin	Dorsal fin, flanks	Fernando de Noronha Archipelago	68	Y	1,141	J. M. da Silva Jr/Centro Mamíferos Aquáticos
Bottlenose dolphin	Dorsal fin	Patos Lagoon estuary – S Brazil	~20	Y	~150	LTMM-FURG
Humpback whale	Fluke	Antarctic Peninsula	~25	Y	~500	LTMM-FURG
Killer whale	Dorsal fin	Antarctic Peninsula	~10	Y	~50	LTMM-FURG
Croatia						
Common bottlenose dolphin	Dorsal fin	North Adriatic Sea	251	Y	610	N. Rako/BWI
Common bottlenose dolphin	Dorsal fin	Central Adriatic Sea	Analysis in progress	Y	415 (to be updated with 2010 data)	D. Holcer/BWI
Common bottlenose dolphin	Dorsal fin	North Adriatic Sea	14	Y	110	T. Genov/BWI; Morigenos
Denmark						
Bowhead whale	Whole body	Davis Strait – Baffin Bay	135	Y	109	O. Tervo/AS; KU
Humpback whale	Fluke	West Greenland	67 encounters, 25 individuals	Y	76 (1988-2010)	F. Ugarte/GINR
France						
Common bottlenose dolphin	Dorsal fin	Normandy/NE Atlantic	-	Y	In progress	F. Gally/GECC
Common bottlenose dolphin	Dorsal fin	Channel/NE Atlantic	In progress	Y	In progress	GMN
Common bottlenose dolphin	Dorsal fin	W Brittany	In progress	Y	In progress	S. Hassani/LEMM
Long-finned pilot whale	Dorsal fin	Bay of Biscay/NE Atlantic	In progress	Y	104	O. Van Canneyt/CRMM/ULR
Risso's dolphin	Dorsal fin and body	NW Mediterranean	11	N	In progress	GIS3M

Australia: Note 1 - Photographs available of c.1,000 whales since 1996. Full analysis completed for seasons 2006, 2007 and 2008 only - which has provided 384 complete ID's (images available for both sides of the whale) of different whales from these 3 years alone.

Brazil: *includes possible double identifications; **catalogue up to 2006; photos from 2007-10 aerial surveys under analysis.

France: § includes beaked whale, killer whale, pygmy killer whale, short-finned pilot whale, melon-headed dolphin, common bottlenose dolphin, pan-tropical spotted dolphin, Fraser's dolphin, false killer whale, striped dolphin, spinner dolphin, rough-toothed dolphin, killer whale, *Kogia* sp. #includes melon-headed whale, spinner dolphin, Indo-Pacific bottlenose dolphin.

Australia: (*1) These samples were used by Megan Anderson for her PhD thesis, which was submitted in 2010. (*2) South Australia (SA) Biopsy samples have been obtained by Moller *et al.* but no report was received.

France: *sexing was done at Australian Antarctic Division.

Japan: *Current work is being undertaken to evaluate the effect of the quake and tsunami of March 11th on these samples.

Australia: (*1) South Australian Museum (SAM). The following list includes: - Entanglement probable – for example, animals with net marks/injuries and/or that have had flippers or fluke's removed, and full stomachs and sometimes food in the oesophagus, suggesting a sudden death. - Entanglement – known entanglements in aquaculture nets, wild fishery nets and other types of net. - Other Unintentional - Accidental injury by humans for example, boat strike. - Intentional – e.g. shooting, stabbing. *Complete sets of tissue samples were not collected from all animals because in some cases the state of decomposition made this inappropriate.

France: *Typically skin, blubber, teeth, stomach, muscle, kidney, liver, gonads.

Japan: *: Samples and data are currently under analysis. Current work is undergoing to evaluate the effect of the March 11's quake and tsunami on some samples.

Australia: (*1) South Australian Museum (SAM) The following list includes other circumstances of death: - Unknown - no information, too decomposed, incomplete specimen. - Diseased – e.g. significant parasites, heart disease, infection. - Live stranding - put back to sea and died, euthanised, died after stranding. - Other natural – e.g. choked on shark, starved, neonatal death, predator (killer whale, shark). *Complete sets of tissue samples were not collected from all animals because in some cases the state of decomposition made this inappropriate.

France: *typically: teeth or baleen plates, skin, blubber, muscle, reproductive organs, stomach contents, kidney, liver. **typically: muscle, teeth, stomach contents, skin, liver, kidney. \$ include 1 fin whale, 2 minke whale, 1 pygmy sperm whale, 1 long-finned pilot whale, 2 common bottlenose dolphin, 17 short-beaked common dolphin, 7 striped dolphin, 4 harbour porpoise. \$\$ includes mostly striped dolphin and common bottlenose dolphin, 1 Cuvier's beaked whale, 1 sperm whale and 1 minke whale. μ includes 1 Gervais's beaked whale, 1 pygmy killer whale, 1 Fraser's dolphin, 1 Atlantic spotted dolphin. # includes 2 pygmy sperm whales, 2 dwarf sperm whales.

Japan: *Samples are from whales stranded and reported to the Fisheries Agency of Japan as well as from other sources. They are under analysis.

Netherlands: *Depending on conservation state: a variety of specific organs/tissues or tissues with pathologic changes, gastric contents, liver, fat, muscle, skin, teeth.

New Zealand: *final sample pending a necropsy of a frozen carcass currently held at Otago Museum.

USA: *Data are entered as represented by the NOAA Fisheries NER Stranding Network and have not been formally reviewed by NOAA Fisheries.

^bSamples include some or all of the following: hard parts (i.e. teeth, jaw, skull, baleen, entire skeleton, etc.) and/or soft parts (i.e. skin, gonads, muscle, blubber, blood, organs, etc). ^cSamples are sent to various educational and scientific collections and number analysed is unknown.

STATISTICS FOR LARGE CETACEANS

USA: Comments: ¹ Vessel had just left a group of whales when passengers and crew felt strike. Vessel slowed down and noticed adult humpback surface behind and then sound. No wounds observed on animal; no blood observed in water. Vessel stayed in area for 1 hour to observe animal, but no confirmed re-sight was obtained. ² Crew and guests felt a "bump" on the port rudder. After the bump the calf surfaced once and appeared fine. Then the mother surfaced with the calf. No blood or injury noticed. No damage reported to boat. ³ Private motor vessel travelling north of Lahaina, Maui struck subadult humpback. Animal surfaced immediately off bow. Animal monitored for over an hour. No blood or injuries observed to animal. No injuries to passengers or damage to vessel. ⁴ Military vessel felt a bump port bow below pilot house. No blood or injury seen. Only crew on flybridge saw the whale bump the boat and then saw an "uninjured whale behaving normally behind the boat with a pectoral flipper in the air." ⁵ Vessel struck a sub-adult humpback in which the first sighting by the two experienced observers was several feet below the bow of the vessel. Captain immediately throttled back. Boat slowed, but was not quite stopped when crew felt boat lift slightly upon contact with animal. Next surfacing observed was 50 yds aft of vessel. No blood or tissue was observed in water; however, a wound involving the subcutaneous layer was observed just forward and dorsal of the dorsal fin. Animal monitored by vessel for over 30 minutes. Animal headed SE exhibiting behavior characterized as normal. ⁶ Animal struck by 29-foot tour vessel with twin 115 HP outboards off Hapuna Beach, Big Island. Captain immediately throttled back and observed both the mother and calf surface behind the boat. Blood seen in water in the vicinity of calf. Passengers and crew were not injured. Animal monitored by vessel for only a couple of minutes. Calf observed swimming off with mother. ⁷ Tour vessel collided with an adult (mother) humpback off Olowalu, Maui. No blood was seen in the water around the whales and no injuries were observed. Mother and calf observed swimming off with no obvious signs of distress. HHWNMS' vessel responded and accessed 7 mother calf pairs in area. No obvious injuries were observed on the animals. ⁸ Mother calf humpback surfaced 3 feet of starboard bow. Captain immediately throttled back, but collision occurred. Whales surfaced once immediately to port then dove (no flukes) and disappeared. ⁹ Tour vessel in area discovered injured animal with wounds along right side indicative of prop marks and called local whale researcher, to investigate sighting. It is possible that report is related 3/27/08 event reported in the same area just over two weeks earlier. However, when and where the strike occurred is not known. ¹⁰ Humpback calf with prop wounds along left side and caudal area encountered and subsequently assessed/documentated by whale research organization.

USA: Comments: ¹ Small diameter line (monofilament?) coming from the right side of the mouth, between baleen plates approximately one quarter the way back. Threat exists. Likely non-life threatening. No response mounted. ² Subadult humpback believed have clean, ~3/8", yellow, polypro line from forward on body (flipper or mouth?) along right side and over dorsal, before trailing aft. Possibly life-threatening. No response mounted. ³ Small, red polyball trailing at animal's fluke with heavy gauge (~3/4" - 7/8"), white line through mouth and trailing on both sides of the body to a bundle of gear that lies just above the animal's flukes. Response mounted. Attempted to establish initial control line with telemetry buoy attached, but unable to grapple into gear. Animal successfully biopsy sampled on last approach with failing light. ⁴ Response mounted. Animal successfully tagged with telemetry buoy. Next day, full response team responded. Telemetry package with all gear attached found 40 nm West of Oahu. Animal had thrown gear during the night. Gear recovered is surface marking system from locally set (off Oahu) crab pot gear. ⁵ Humpback entangled in heavy gauge line from forward on body. Response mounted. Animal assessed, documented, tagged. Over 115 feet of the smaller gauge line was removed and recovered. Partially disentangled. Animal likely still carrying gear. ⁶ Juvenile humpback entangled in heavy gauge line at least around fluke blades, though may involve other parts of body. Lines causing significant trauma to flukes. Animal emaciated and in poor condition. A heavy load of cyamids exist at least on the tailstock region of the body. Response not mounted due to nature of report.

Argentina: ¹ Nets fuxed from shore for robalo and pejerrey; ² Entangled in gear, cut off and sank.

Australia: (*1) Reported as fishing line. (*2) None reported in self regulated log book system for commercial fisheries in the Northern Territory. (*3) Dates in Australian format. Latitude and longitude in decimal degrees.

Brazil: * Necropsy of stranded carcass.

Italy: According to Fortuna *et al.* 2010, a similar rate of bycatch would lead to about 10-20 annual captures. Given the rareness of the events, the CVs are extremely high and these figure are only indicatives.

Anthropogenic mortality of small cetaceans for the calendar year 2008

Fishery bycatch of small cetaceans for the calendar year 2007 and 2008

USA: ¹ Entangled in gear, cut off and sank. ² Hooked pierced through lip or skin part of outer part of mouth; pulled out before release. ³ Hooked in mouth and approximately 7m of leader line was still attached. ⁴ Hooked inside mouth; 18/0 offset circle hook and approx. 14.5 m of clear monofilament line with 80g wt left attached. ⁵ 18/0 Offset circle hook and ~2ft line wrapped tightly around beak, preventing beak from opening; Hook presumed inside mouth/swallowed. Dolphin struggled during attempt to cut line; came loose and slowly swam down/away. Not seen again. ⁶ Hooked in mouth/jaw; released with about 10ft of mono leader. ⁷ Hooked in unknown location; 0.6m wire leader, 45g weight and 7m branchline left attached. ⁸ Hooked in right side of mouth, 3m branchline, offset 36mm tuna hook and 45g weight left. ⁹ Entangled, dead. ¹⁰ Hooked and entangled; released with 10m of branch & leader line, weight. ¹¹ Hooked and entangled in unknown location; broke free; hook, leader and branchline (10.5m) not recovered. ¹² Hooked in mouth; released with 15/0 offset circle hook, 0.5m leader, 45g weight and ~2.5m branchline. ¹³ Entangled in mainline @mouth/head; freed itself while struggling alongside vessel; swam away slowly. Based on size (~7ft), this was a dependent calf, therefore this is considered a serious injury. ¹⁴ Hooked/entangled @ head area; 15 or 18 offset circle hook, 0.5m leader, 45g weight and 7m branchline attached when line cut. ¹⁵ Hooked/entangled @ head area; 15 or 18 offset circle hook, 0.5m leader, 45g weight and 7m branchline attached when line cut. ¹⁶ Hooked in pectoral fin or mouth/head; all gear pulled free with straightened hook. No gear remained on this larger (15 ft) animal, which swam away strongly. ¹⁷ Hooked in pectoral fin or mouth/head; hook pulled free and no gear remained on this 7-8 ft animal, which swam away with larger animal (previous record). ¹⁸ Hooked and entangled @ fluke; <1ft line left attached to hook after line cut. ¹⁹ Apparent depredation event, whale struggling and lots of tuna or whale blood in water. 18 offset circle hook and 9m branchline, 80g weight not recovered. Unknown how whale hooked/entangled. ²⁰ Hooked in mouth (right side), hook not visible. Either 15 offset circle hook or 36mm offset tuna hook; 0.5 wire leader, 45g weight, 6-8m branchline remained attached. ²¹ Hooked in fluke, dead.

Unidentified cetacean	9	0	M. Garron/NER Stranding Network	<i>Mendy.Garron@noaa.gov</i>
Unidentified dolphin	9	0	M. Garron/NER Stranding Network	<i>Mendy.Garron@noaa.gov</i>
USA 2008				
Atlantic spotted dolphin	1	0	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Atlantic white-sided dolphin	4	4	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Blainville's beaked whale	1	1	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Bottlenose dolphin	465	243	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Cuvier's beaked whale	2	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Dwarf sperm whale	5	4	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Fin whale	1	1	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Gervais' beaked whale	2	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Harbor porpoise	6	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Humpback whale	3	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Melon-headed whale	9	8	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Minke whale	1	1	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Northern right whale	3	3	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Pantropical spotted dolphin	1	0	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Pygmy killer whale	5	3	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Pygmy sperm whale	22	19	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Risso's dolphin	1	1	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Rough-toothed dolphin	1	0	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Short-beaked common dolphin	1	1	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Short-finned pilot whale	3	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Sperm whale	4	4	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Spinner dolphin	2	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Striped dolphin	3	2	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Pygmy/dwarf sperm whale	1	0	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>
Pilot whale	6	1	B. Mase/SEFSC	<i>Blair.Mase@noaa.gov</i>

Appendix 1 FOA fishing descriptions and codes

FAO FISHING GEAR CATEGORIES:		FALLING GEAR	
SURROUNDING NETS		Cast nets	FCN
With purse lines	PS	Falling gear (not specified)	FG
One-boat operated purse seines	PS1	GILLNETS AND ENTANGLING GEAR	
Two-boat operated purse seines	PS2	Set gillnets (anchored)	GNS
Without purse lines (lampara)	LA	Driftnets	GND
SEINE NETS		Encircling gillnets	GNC
Beach seines	SB	Fixed gillnets (on stakes)	GNF
Boat seines	SV	Trammel nets	GTR
Danish seines	SDN	Combined gillnet-trammel nets	GTN
Scottish seines	SSC	Gillnets and entangling gillnets (not specified)	GEN
Pair seines	SPR	Gillnets (not specified)	GN
Seine nets (not specified)	SX	TRAPS	
TRAWLS		Stationary uncovered pounds nets	FPN
Bottom trawls	TBB	Pots	FPO
Beam trawl	OTB	Fyke nets	FYK
Otter trawls (side or stern)	PTB	Stow nets	FSN
Pair trawls	TBN	Barriers, fences, weirs, etc	FWR
Nephrops trawls	TBS	Aerial traps	FAR
Shrimp trawls (not specified)	TM	Traps (not specified)	FIX
Midwater trawls		HOOKS AND LINES	
Otter trawls (side or stern)	OTM	Handlines and pole-lines (hand operated)	LHP
Pair trawls	PTM	Handlines and pole-lines (mechanised)	LHM
Shrimp trawls	TMS	Set longlines	LLS
Midwater trawls (not specified)	TM	Drifting longlines	LLD
Otter twin trawls	OTT	Longlines (not specified)	LL
Otter trawls (not specified)	OT	Trolling lines	LTL
Pair trawls (not specified)	PT	Hooks and lines (not specified)	LX
Other trawls (not specified)	TX	GRAPPLING AND WOUNDING	
DREDGES		Harpoons	HAR
Boat dredges	DRB	HARVESTING MACHINES	
Hand dredges	DRH	Pumps	HMP
LIFT NETS		Mechanised dredges	HMD
Portable lift nets	LPN	Harvesting machines (not specified)	HMX
Boat-operated lift nets	LNB	MISCELLANEOUS GEAR	
Shore operated stationary lift nets	LNS	RECREATIONAL FISHING GEAR	MIS
Lift nets (not specified)	LN	GEAR NOT KNOWN OR NOT SPECIFIED	RG
		SHARK CONTROL NETS	NK
		DERELICT FISHING GEAR	NSC
