

# DRAFT SC/61 Document Listing - 4 June 2009 9am

**Highlight** indicates the paper has not yet been received by Document Control

## SC/61/SM

1. Brownell, R.L. et al. Mass stranding events of pygmy killer whales, *Feresa attenuata*, from Taiwan and worldwide review. [Received]
2. Oviedo, L. et al. Abundance and distribution of common dolphins, *Delphinus* spp., off northeastern Venezuela: implications for conservation and management. [Received]
3. Fernández, M. and Oviedo, L. Distribution and abundance of *Delphinus delphis* off the southern Pacific coast of Costa Rica. [Received]
4. No paper.
5. Read, F.L. et al. Common dolphin (*Delphinus delphis*) in Galicia, NW Spain: distribution, abundance, life history and conservation. [Received]
6. Cañadas, A. et al. Abundance and distribution of common dolphins in the offshore NE Atlantic. [Received]
7. Panigada, S. Winter absolute abundance of striped dolphins (*Stenella coeruleoalba*) in the Pelagos Sanctuary (Western Mediterranean Sea) assessed through aerial survey. [Received]
8. Fernandez, M. et al. Differences in spatial distribution of two small delphinids (*Delphinus delphis* and *Stenella frontalis*) in two islands of the Azores Archipelago. [Received]
9. Øien, N. and Hartvedt, S. Common dolphins *Delphinus delphis* in Norwegian waters. [Received]
10. Kelly, N. et al. A description of killer whales (*Orcinus orca*) observed in Vincennes Bay, eastern Antarctica. [Received]
11. Amaral, A.R. et al. Worldwide phylogeography of the genus *Delphinus* revisited. [Received]
12. Westgate, A. and Palka, D. Summary of current knowledge of short-beaked common dolphins (*Delphinus delphis*) in the western North Atlantic. [Received]
13. Dinis, A. et al. Common bottlenose dolphin (*Tursiops truncatus*) occurrence, distribution and conservation status in Madeira Archipelago (Portugal). [Received]
14. Brophy, J.T. et al. The diet and feeding ecology of the common dolphin (*Delphinus delphis*) in the northeast Atlantic. [Received]
15. Cerchio, S. et al. Coastal dolphin hunting in the southwest of Madagascar: status of populations, human impacts and conservation actions. [Received]
16. Vieira, N. et al. Occurrence and relative abundance of common dolphins along the Portuguese mainland shore. [Received]
17. Brito, C. and Vieira, N. Historical accounts about the occurrence and capture of common dolphins in Portugal mainland. [Received]
18. Brito, C. and Vieira, N. Captures of “toninhas” in Angola during the 20<sup>th</sup> century. [Received]
19. Winship, A.J. et al. Preliminary assessment and bycatch limits for northeast Atlantic common dolphins. [Received]
20. Stockin, K.A. and Orams, M.B. The status of New Zealand common dolphins (Genus *Delphinus*). [Received]
21. Shadbolt, T. et al. A review of the status and major threats to narwhal populations across their range.
22. Cremer, M.J. et al. Reviewing the status of the franciscana population in a protected bay in southern Brazil as a tool for the establishment of a marine protected area.
23. Jaramillo-Legorreta, A.M. et al. Report of vaquita expedition 2008 and current conservation actions. [Received]
24. Flores, P.A.C. et al. Revisiting the conservation status of Guiana dolphin (*Sotalia guianensis*).
25. Lauriano, G. Abundance estimate of striped dolphins in the Pelagos Sanctuary through line transect surveys. [Received]
26. Ainley, D.G. et al. An apparent decrease in the prevalence of “Ross Sea killer whales” in the southern Ross Sea. [Received]

27. Mirimin, L. et al. Population genetic structure of common dolphins in the North-east Atlantic using microsatellite loci and mtDNA control region markers. [Received]
28. Quintana-Rizzo, E. Human-related problems affecting wild dolphin populations in the Pacific Coast of Guatemala [Abstract Only]. [Received]
29. Freitas, L. et al. An evaluation of common dolphin (*Delphinus delphis*) distribution, occurrence and conservation status in Madeira (Portugal), 2001 to 2008. [Received]
30. Fernandez-Contreras, M.M. et al. Incidental by-catch of short-beaked common dolphins (*Delphinus delphis*) in the pair trawler fishery off north-western Spain. [Received]
31. Gomez-Campos, E. et al. Assessment of nutritive condition indices and their variation with growth and reproduction in the striped dolphin (*Stenella coeruleoalba*). [Received]
32. Bolanos-Jimenez, J. Preliminary assessment of the abundance of Atlantic spotted (*Stenella frontalis*) and common bottlenose (*Tursiops truncatus*) dolphins in the State of Aragua, Venezuela, on the basis of photo-id techniques (Winter 2009). [Received]
33. Best, P.B. Estimating the abundance of common dolphins on the Southern coast of South Africa. [Received]
34. Caurant, F., Chouvelon, T., Lahaye, V., Mendez, P., Rogan E., Spitz, J., Ridoux, V. The use of ecological tracers in discriminating population structure for management purpose: the case of the short-beaked common dolphin in European Atlantic waters. [Received]
35. Lawson, J., Jean-François Gosselin, J.F., Desportes, G., Acquarone, M., Heide-Jørgensen, M.P., Mikkelsen, B., Pike, B., Víkingsson, G., Zabavnikov, V., Øien, N. A note on the distribution of short beaked common dolphins, *Delphinus delphis*, observed during 2007 T-NASS, Trans North Atlantic Sightings Survey. [Received]
36. Bjorge, A., Godoy, H. Report on Bycatch of Cetaceans in Norwegian Fisheries, 2006-2008 [Received]
37. Northridge, S. and Kingston, A. Common Dolphin Bycatch In UK Fisheries. [Received]

#### **SC/61/NPM**

1. An, Y.R. et al. Cruise report of the Korean cetacean sighting survey in the Yellow Sea, April-May 2008. [Received]
2. An, Y.R. et al. Abundance estimation of northwest Pacific minke whales using the Korean sighting survey in 2008. [Received]
3. Choi, S.G. et al. Plan for the Korean sighting survey in the East Sea in 2010. [Received]
4. Goto, M. et al. Update of the mitochondrial DNA analysis of common minke whales from Japanese waters. [Received]
5. Okamura, H. et al. Revised estimate of  $g(0)$  for the North Pacific common minke whale. [Received]
6. Kitakado, T. et al. Integration of abundance estimates for common minke whales in sub-areas 5, 6 and 10 using sighting data from Japanese and Korean surveys. [Received]
7. Miyashita, T. et al. Abundance of the J-stock common minke whale using the Japanese sighting data with  $g(0)=1$ . [Received]
8. Kanda, N. et al. Update of the microsatellite analysis of common minke whales from Japanese waters. [Received]
9. Goto, M. et al. Stock structure scenario of common minke whales from Korean and Japanese waters as revealed by genetic data. [Received]

#### **SC/61/RMP**

1. Punt, A.E. A note related to determining 'abrupt changes in abundance' in simulation output. [Received]
2. Bøthun, G. et al. Abundance of minke whales in the Northeast Atlantic based on survey data collected over the period 2002-2007. [Received]
3. Bøthun, G. and Skaug, H.J. Description and performance of an automatic duplicate identification routine. [Received]

4. Bøthun, G. Further analysis of measurement error in radial distance. [Received]
5. Skaug, H.J. Inferring spatial cluster structure from line transect data. [Received]
6. Skaug, H.J. et al. A comparison of observed surfacing rates in minke whales between surveys and VHF tagged animals. [Received]
7. Øien, N. et al. Summary of available data on northeastern Atlantic minke whale surfacing rates. [Received]
8. Øien, N. Report of the 2008 survey for minke whales in the Small Management Area E5 – Svalbard. [Received]
9. Gunnlaugsson, Th. and Vikingsson, G.A. Thoughts on NA fin RMP implementation, hypothesis IV and research. [Received]
10. Macleod, K. et al. Distribution and abundance of fin whales and other baleen whales in the European Atlantic. [Received]
11. Gunnlaugsson, Th. et al. Aerial survey in Faxaflói, southwest Iceland in 2008, report and comparison to earlier surveys. [Received]
12. Paxton, C.G.M. et al. Mark-recapture distance sampling estimate of minke whales from the Icelandic, Faroese and Russian components of T-NASS. [Received]
13. Cooke J.G. Further analysis of the effects of environmental variability on the estimation of MSY rates. [Received]

#### **SC/61/IA**

1. Punt, A.E. A note related to additional sensitivity tests for the Southern Hemisphere minke whale statistical catch-at-age analysis. [Received]
2. Punt, A.E. Ageing error effect size for the Southern Hemisphere minke whales. [Received]
3. Kelly, N. et al. An aerial survey for Antarctic minke whales in sea ice off east Antarctica: a pilot study. [Received]
4. Kelly, N. et al. A planned aerial survey for minke whales in east Antarctica during summer 2009/10. [Received]
5. No paper.
6. Okamura, H. and Kitakado, T. Abundance estimates and some diagnosis of Antarctic minke whales from the historical IDCR/SOWER survey data using the revised OK method. [Received]
7. Okamura, H. and Kitakado, T. Summary of simulation trials for Antarctic minke whale abundance surveys using the revised OK method. [Received]
8. Kitakado, T. and Okamura, H. Estimation of additional variance with its application to abundance estimates based on the OK method. [Received]
9. Palka, D.L. and Smith, D.W. Description of simulations of the IWC/SOWER Southern Hemisphere minke whale abundance surveys.
10. Selland, T. et al. Robustness of the hazard probability model. [Received]
11. Kock, K.-H. et al. The occurrence of cetaceans along two transects from 57°S to Atka Bay (70°29.6'S/07°57.6'W). [Received]
12. Burt, M.L. and Ensor, P. Analysis of IO and BT search modes on the IWC-SOWER 2007/08 cruise. [Received]
13. Leaper, R. Photographic measurements of bearings to sightings and scanning patterns of observers on the 2008/09 SOWER cruise. [Received]
14. Bravington, M.V. and Hedley, S.L. Antarctic minke whale abundance estimates from the second and third circumpolar IDCR/SOWER surveys using the SPLINTR model. [Received]
15. Nishiwaki, S. et al. Research plan proposal for the 2009/10 IWC/Southern Ocean Whale and Ecosystem Research (SOWER) cruise. [Received]
16. Matsuoka, K. et al. Influence of sea ice concentration on Antarctic minke whale abundance estimation in the Ross Sea. [Received]
17. Murase, H. Preliminary examination of the effect of timing of ice melting on the density of Antarctic minke whales – a new environmental index. [Received]

18. Burt, M.L. et al. Detection probability of Antarctic minke whales: analyses of the BT mode experiments conducted on the IWC-SOWER cruises 2005/06-2007/08.
19. Ensor, P. et al. 2008-2009 International Whaling Commission-Southern Ocean Whale and Ecosystem Research (IWC-SOWER) cruise. [Received]
20. Mikhalev, Y. et al. Falsification of Soviet whaling data after the International Observer Scheme. [Received]
21. Brownell, R.L., et al. Implications of SC/61/IA20. [Received]

#### **SC/61/WW**

1. Scarpaci, C. et al. Recent advances in whalewatching research: 2008-2009. [Received]
2. Luksenburg, J.A. and Parsons, E.C.M. The effects of aircraft on cetaceans: implications for aerial whalewatching. [Received]
3. Weinrich, M. Are behavioural data from whalewatch boats biased? [Received]
4. Isabel Cristina Avila and Lina Marcela Correa. Characterization of whalewatching and its effect on behaviour of humpback whales in Bahía Málaga, Colombia, South America.
5. Andreu, E. et al. Long-finned pilot whale (*Globicephala melas*) response to whale-watching vessels in the Strait of Gibraltar. [Received]
6. Schaffar, A. et al. Avoidance of whale watching boats by humpback whales in their main breeding ground in New Caledonia. [Received]
7. Robbins, J. and Frost, M. An on-line database for world-wide tracking of commercial whale watching and associated data collection programs. [Received]
8. Flores, P.A.C. et al. Insights on dolphinwatching in Brazil.
9. Groch, K.R. Development of whalewatching activities in Southern Brazil: conservation implications for right whales. [Received]
10. Sironi, M. et al. New regulations for sustainable whalewatching at Peninsula Valdes, Argentina. [Received]
11. Sequeira, M. et al. Review of whalewatching activities in mainland Portugal, the Azores, Madeira and Canary archipelagos and the Strait of Gibraltar. [Received]
12. Iniguez, M., Leslie, A. Report of Responsible Whale Watching Workshop, XIII South American Meeting of Specialists in Aquatic Mammals and 7<sup>th</sup> SOLAMAC Conference, October 15<sup>th</sup> 2008, Montevideo, Uruguay. [Received]

#### **SC/61/E**

1. Stachowitsch, M., Parsons, E.C.M. and Rose, N.A. State of the Cetacean Environment Report: 2008-2009. [Received]
2. Oviedo, L. Patterns of prey biomass consumption by small odontocetes in the northeastern coast of Venezuela. [Received]
3. No paper.
4. Moon, H.B. et al. Chlorinated and brominated organic compounds in cetaceans from Korean coastal waters. [Received]
5. Moon, H.B. Perfluorinated compounds (PFCs) in cetaceans from Korean coastal waters. [Received]
6. Wright, D. et al. A review of developing marine renewable technologies. [Received]
7. Brown, V.C. and Simmonds, M.P. A further update on the distributions of marine renewable energy plants in Europe. [Received]
8. Simmonds, M.P. et al. The tertiary effects of climate change for cetaceans – the human dimension. [Received]
9. Koski, W.R. et al. A review and inventory of unmanned aerial systems for detection and monitoring of key biological resources and physical parameters affecting marine life during offshore exploration and production activities. [Received]
10. Clark, C.W. et al. Acoustic masking in marine ecosystems as a function of anthropogenic sound sources. [Received]

11. [NO PAPER]
12. Rosa, C. et al. A summary of dead, stranded bowhead whales reported in the Chukchi and Beaufort Seas over the last twenty-five years. [Received]
13. Marsili, L. et al. Success in fibroblast cell cultures from long-beaked common dolphin (*Delphinus capensis*) and Bryde's whale (*Balaenoptera edeni*) skin biopsies of the Gulf of California (Mexico): Potential application for ecotoxicological studies. [Received]
14. Hubner de Jesus, A. et al. A case of Lobomycosis in Guiana dolphin from Brazil.
15. Wright, A.J. A workshop on cumulative impacts of underwater noise with other anthropogenic stressors on marine mammals: from ideas to action. [Received]
16. Wright, A.J. et al. Concerns related to chronic stress in marine mammals. [Received]
17. Fossi, M.C. et al. Biomarker responses and contaminant levels in fin whale (*Balaenoptera physalus*) skin biopsies of Pelagos Sanctuary (Mediterranean Sea) and of the Gulf of California (Mexico). [Received]
18. Fossi, M.C. et al. Preliminary results of organochlorines levels and biomarker responses in skin biopsies of Adriatic bottlenose dolphins (Mediterranean Sea). [Received]
19. Leaper, R. et al. Possible steps towards reducing impacts of shipping noise. [Received]
20. Gauffier, P. et al. Estimating the consequences of the 2006-07 Morbillivirus epizootic on the long-finned pilot whales in the Strait of Gibraltar. [Received]
21. Koschinski, S. and Koch, K.-H. Underwater unexploded ordnance – Methods for a cetacean-friendly removal of explosives as alternatives to blasting. [Received]

#### **SC/61/BC**

1. Ritter, F. Collisions of sailing vessels with cetaceans worldwide: first insights into a seemingly growing problem. [Received]
2. Panigada, S. and Leaper, R. Ship strikes in the Mediterranean Sea: assessment and identification of conservation and mitigation measures. [Received]
3. Robbins, J., Landry, S. and Mattila, D.K. Entanglement frequency and impacts among Gulf of Maine humpback whales. [Received]
4. Marcondes, M.C.C. and Engel, M.H. Ship strikes with humpback whales in Brazil. [Received]
5. Felix, F. A new case of ship strike with a Bryde's whale in Ecuador. [Received]
6. Gauffier, P. et al. An update on fin whales (*Balaenoptera physalus*) migration through the Strait of Gibraltar. [Received]
7. Brownell, R.L. et al. Vessel collision with a large whale off southern Chile. [Received]
8. Steele, D. et al. Market surveys of whale meat in Japan, 2008-2009, how many fin whales are for sale? [Received]
9. Leaper, R. and Donovan, G. Update on the IWC ship strike database. [Received]

#### **SC/61/AWMP**

1. Breiwick, J.M., Punt, A.E., Rugh, D.J., Laake, J.L. and Hobbs, R.C. Revised methods for estimating abundance of the Eastern North Pacific stock of gray whales. [Received]
2. Brandon, J.R. and Punt, A.E. Assessment of the eastern stock of North Pacific gray whales: incorporating calf production, sea-ice and strandings data. [Received]
3. Brandon, J.R. and Punt, A.E. Testing the Gray Whale SLA: allowing environmental variability to influence population dynamics. [Received]
4. Heide-Jorgensen, M-P. et al. Revised estimates of minke whale abundance in West Greenland in 2007. [Received]
5. Witting, L. and Schweder, T. Lower confidence bound on population status from catch sex ratio: applied to minke whales off West Greenland. [Received]
6. Clapham, P.J. and Kennedy, A.S. Calculation of the yield of meat and other products from fin and minke whales taken in Greenland. [Received]
7. Brandao, A. and Butterworth, D.S. Yet further results for lower confidence limits for the abundance of West Greenland minke whales. [Received]

## SC/61/SH

1. Felix, F. et al. Genetic diversity and population structure of humpback whales (*Megaptera novaeangliae*) from Ecuador based on mitochondrial DNA analyses. Update of SC/59/SH11. [Received]
2. Felix, F. and Botero-Acosta, N. Distribution and seasonal occurrence of humpback whales (*Megaptera novaeangliae*) cows with calves in coastal waters of Ecuador. [Received]
3. Matsuoka, K. and Pastene, L.A. Summary of photo-id information of blue whales collected by JARPA and preliminary analysis of matches in the feeding grounds. [Received]
4. No paper.
5. No paper.
6. Carvalho, I. et al. Temporal patterns of population structure of humpback whales in west coast of Africa (B1-B2 sub-stocks) based on mtDNA and microsatellite variation. [Received]
7. Cerchio, S. et al. Updated estimates of abundance for humpback whale breeding stock C3 off Madagascar, 2000-2006. [Received]
8. Razafindrakoto, Y. et al. Similarity of humpback whale song from Madagascar and Gabon indicates significant contact between South Atlantic and southwest Indian Ocean populations. [Received]
9. Murray, A. et al. Comparison of humpback whale songs in the southern Indian Ocean indicate limited exchange between populations wintering off Madagascar and Western Australia. [Received]
10. Paton, D.A. et al. Abundance estimate of Australian east coast humpback whales (Group EI) in 2005 using multi year photo-identification data and capture-recapture analysis. [Received]
11. Allen, J.M. et al. Interim Report: IWC Research Contract 16, Antarctic Humpback Whale Catalogue. [Received]
12. No paper.
13. Albertson-Gibb, R. et al. Photo-identification comparison of humpback whales from the Antarctic Peninsula/Strait of Magellan and French Polynesia (Breeding Stock F). [Received]
14. Albertson-Gibb, R. et al. Capture-recapture estimation of abundance for humpback whales of French Polynesia (Breeding Stock F) using photo-identification. [Received]
15. The Secretariat. Report of the Annual Meeting of the South Pacific Whale Research Consortium. [Received]
16. Gedamke, J. Geographic variation in Southern Ocean fin whale song. [Received]
17. Gales, N. et al. Satellite tracking of southbound East Australian humpback whales (*Megaptera novaeangliae*). [Received]
18. Felix, F. et al. Movements of humpback whales between Ecuador and Central America, wintering area of the breeding stock G. [Received]
19. Olson, P.A. Blue whale photo-identification from IWC IDCR/SOWER surveys. [Received]
20. Kelly, N. et al. Characterising feeding ground habitat of baleen whales in east Antarctica: a planned analysis. [Received]
21. Galletti, B. et al. First aerial surveys to estimate abundance of blue whales off southern Chile. [Received]
22. Galletti, B. Update of 2009 field season of blue whales off Isla de Chiloe, Chile. [Received]
23. Hedley, S.L. et al. Group IV humpback whales: abundance estimates from aerial and land-based surveys off Shark Bay, Western Australia, 2008. [Received]
24. Franklin, W. et al. Photo-identification comparison of humpback whale (*Megaptera novaeangliae*) flukes from Antarctic Area IV with Western Australian, Eastern Australian and East African fluke catalogues.
25. Gibson, Q., Kaufman, G. and Forestell, P. Status report: photo-identification of humpback whales are multiple aggregation areas along east coast Australia. [Received]
26. Samaran, F. et al. Low frequency whale sounds recorded in the South Western Indian Ocean: Discovery of a mid-ocean sympatric area of southern blue whale subspecies. [Received]

27. Johnston, S.J. and Butterworth, D.S. Bayesian assessments using models which allow for interchange on the breeding grounds of Southern Hemisphere humpback whale breeding sub stocks C1 and C3. [Received]
28. Johnston, SJ, Butterworth, DS and Muller, A: Simulation testing of the sabbatical model estimator for the assessment of Southern Hemisphere humpback whale breeding stock C and its component sub-stocks. [Received]
29. Muller, A, Butterworth, DS and Johnston, SJ: Is the length distribution of C1 and C3 humpback whale catches consistent with an age-structured version of the resident model? [Received]
30. Castro, C & Godfrey, M. Observations of the humpback whales in Galapagos Islands (1985-2006). [Received]
31. Findlay, K., Bannister, J., Best, P., Cerchio, Jackson, J., Loo, Paton, D., Rosenbaum, Weinrich, Zerbini, A. Allocations of catches of humpback whales (1904 – 1973) for the IWC comprehensive assessment of southern hemisphere humpback whales. [Received]
32. Williams, R., Branch, T.A., Zerbini, A., Findlay, K. Model-based abundance estimates and an assessment of minimum population status of blue whales off Chile from the 1997/98 SOWER survey. [Received]
33. Williams, R. et al. Preliminary report on a survey to estimate abundance and distribution of blue whales in Chiloense Ecoregion, southern Chile in 2009. [Received]

#### **SC/61/BRG**

1. Givens, G.H. Spatio-temporal modelling of relative animal density using a long time series of line transect surveys with clustering and censoring. [Received]
2. Wiig, Ø., Bachmann, L., Øien, N., Kovacs, K.M. and Lydersen, C. Observations of bowhead whales (*Balaena mysticetus*) in the Svalbard area 1940-2008. [Received]
3. Koski, W.R. et al. An update to feeding by bowhead whales near an offshore seismic survey in the Beaufort Sea. [Received]
4. Ireland, D.S. et al. Updated distribution and relative abundance of cetaceans in the eastern Chukchi Sea 2006-2008. [Received]
5. Litovka, D.I. and Blokhin, S.A. Investigations on eastern gray whales *Eschrichtius robustus* (Lilljeborg, 1861), taken in Mechigmsky Bay, 2007-2008. [Received]
6. Suydam, R. et al. Subsistence harvest of bowhead whales (*Balaena mysticetus*) by Alaskan Eskimos during 2008. [Received]
7. Bickham, J.W. et al. Assessing molecular substitution patterns in the mitochondrial control region compared to protein coding genes in two marine mammals. [Received]
8. Burdin, A.M. et al. Status of western gray whales off northeast Sakhalin Island, Russia, in 2008. [Received]
9. Weller, D.W. et al. The incidence of killer whale tooth rakes on western gray whales off Sakhalin Island, Russia. [Received]
10. Weller, D.W. Birth-intervals and sex composition of western gray whales summering off Sakhalin Island, Russia. [Received]
11. Pettis, H. North Atlantic right whale consortium Annual Report card (01 November 2007-30 April 2009). [Received]
12. Rosa, C. et al. Update on 2008 collection activities related to “stinky” gray whales in Chukotka, Russia. [Received]
13. Rosa, C. et al. A summary of ongoing bowhead whale sensory research in Northern Alaska. [Received]
14. No paper.
15. Espírito Santo, S.M. et al. Density geostatistical analysis of southern right whale (*Eubalaena australis*) occurrence on Santa Catarina coast – preliminary information. [Received]
16. Clapham, P. et al. Update on North Pacific right whale research. [Received]

17. Brandon, J.R. and Punt, A.E. Assessment of BCB bowheads: including estimates of calf production and preliminary consideration of environmental variability on population dynamics. [Received]
18. Uhart, M.M. et al. Continuing southern right whale mortality events at Peninsula Valdes, Argentina. [Received]
19. Sironi, M. et al. Kelp gulls (*Larus dominicanus*) feeding on southern right whales (*Eubalaena australis*) at Peninsula Valdes, Argentina: updated estimates and conservation implications. [Received]
20. Sadykova, D. and Schweder, T. Migration ranks for bowhead whales (*Balaena mysticetus*) at Barrow in spring. [Received]
21. Schweder, T. and Sadykova, D. Information is gained increasingly fast in capture-recapture surveys – bowheads assessed by photographic surveys, and minke whales by genetic marking? [Received]
22. Ilyashenko, V. Yu. How isolated is the “Western” gray whale population? [Received]
23. George, C. Preliminary findings from the 2009 whale census. [Received]
24. Fadeev, V.I. Benthos studies in feeding grounds of western gray whales off the northeast coast of Sakhalin Island (Russia), 2004-2008. [Received]
25. Vladimirov, V.A. et al. Distribution and abundance of western gray whales off the northeast coast of Sakhalin Island, Russia, 2008. [Received]
26. Tyurneva, O.Y. et al. Photographic identification of the Korean-Okhotsk gray whale (*Eschrichtius robustus*) offshore northeast Sakhalin Island and southeast Kamchatka Peninsula (Russia), 2008. [Received]
27. Swartz, S.L., Urban R., J., Gomez-Gallardo, A., Martinez, S., Nanduca, H., Lopez U., A., Del Monte, A.L., Najera, M. and Perez P., H. Preliminary comparison of winter counts of gray whale in Laguna San Ignacio, B.C.S., Mexico from 1978 to 2008. [Annex available on request][Received]
28. Cooke J.G., Weller D.W., Bradford A.L., Burdin A.M., and Brownell R.L. Updated Population Assessment of Western Gray Whales.
29. No paper.
30. Brownell, R.L., Jr., Lang, A.R., Burdin, A.M., Bradford, A.B. and Weller, D.W. The western gray whale population is distinct (a response to SC/61/BRG22) [Received]
31. Weller, D., Brownell, R., Jr., Burdin, A., Donovan, G., Gales, N., Larsen, F., Reeves, R. and Tsidulko, G. A proposed research programme for satellite tagging western gray whales in 2010. [Received]

#### **SC/61/SCP**

1. Gales, N. et al. Comments on implementation of the Annex P process in the JARPN II review. [Received]

#### **SC/61/EM**

1. Ruegg, K. et al. Have Antarctic minke whales increased in abundance because of 20<sup>th</sup> century whaling? [Received]

#### **SC/61/SD**

1. Waples, R.S. and Hoelzel, A.R. Under development: Guidelines for the analysis of population genetic data used in an IWC management context. [Received]
2. Cipriano, F. and Pastene, L. A review of current knowledge of techniques to extract and amplify DNA from ‘difficult’ whale samples. [Received]
3. Ross, H.A. and Shearman, H. GenBank sequence assessment for species assignment – control region sequences published for baleen whales in 2007. [Received]

## SC/61/JR

1. Pastene et al. Response to the 'Report of the Expert Workshop to Review the JARPN II Programme'. [Received]
2. Tamura, T. et al. Some examinations of uncertainties in the prey consumption estimates of common minke, sei and Bryde's whales in the western North Pacific. [Received]
3. Yasunaga, G. and Fujise, Y. Additional analyses of temporal trends and factors affecting mercury levels in common minke, Bryde's and sei whales in the western North Pacific. [Received]
4. Yasunaga, G. and Fujise, Y. Additional analyses of temporal trends and factors affecting PCB levels in baleen whales from the western North Pacific. [Received]
5. Kanda, N. et al. Update of the analyses on individual identification and mixing of J and O stocks of common minke whale around Japanese waters examined by microsatellite analysis. [Received]
6. Hakamada, T. and Bando, T. Further morphometric analysis on stock structure in the western North Pacific common minke whales (*Balaenoptera acutorostrata*). [Received]
7. Goto, M. et al. Further mitochondrial DNA analysis on stock structure in the western North Pacific common minke whales. [Received]
8. Kanda, N. et al. Further microsatellite analysis of common minke whales in the western North Pacific. [Received]
9. Hakamada, T. Additional analyses on the effects on J-stock of future JARPN II common minke whale catches. [Received]
